Poultry Cold Stress Management Guide

A poultry cold stress management guide covering signs of cold stress and steps to protect birds. Producers use it to prepare houses and respond to cold weather.

Farm / unit: _____ Date: _____ By: _____

1. Watch forecasts and alerts
2. Keep litter dry
3. Seal drafts without blocking ventilation
4. Provide safe heat
5. Prevent frozen water
6. Adjust feed as advised
7. Watch for huddling and weakness
8. Record losses and call your vet

YOUR NOTES

TIP Keep ventilation going and check waterers often since frozen water is a common problem.
