Poultry Feed Conversion Worksheet

A poultry feed conversion worksheet that works out how much feed it takes to produce a pound of bird or dozen eggs. Producers use it to compare flocks and judge feed efficiency.

Farm / unit: _____ Date: _____ By: _____

Flock or pen _____

Start date and end date _____

Bird count at start _____

Bird count at end _____

Total feed used _____

Total weight gained or eggs produced _____

Mortality during the period _____

Calculated feed conversion _____

Notes on feed or weather changes _____

NOTES / CALCULATIONS

TIP Use feed delivered minus feed left over, and include mortality so your figures are honest.
