Poultry feeder Space Calculator

A poultry feeder space calculator worksheet for working out how much feeder space a flock needs. Producers use it with supplier guidance to plan equipment.

Farm / unit: _____ Date: _____ By: _____

Bird type and age _____

Number of birds _____

Feeder type _____

Supplier's space per bird _____

Space needed in total _____

Feeder space on hand _____

Space shortage or extra _____

Feeders to add or move _____

Date and notes _____

NOTES / CALCULATIONS

TIP Use the space figure from your breed supplier or extension office and check birds for crowding at feeders.
