Poultry Heat Illness Prevention Plan

A poultry heat illness prevention plan template for protecting workers and birds during hot weather. Employers use it to plan water, rest, shade and warning signs.

Farm / unit: _____ Date: _____ By: _____

Plan owner and farm contacts

Water access for workers

Shade or cooling areas

Rest break schedule

Signs of heat illness

Emergency response steps

Worker training

Bird heat stress steps

Weather monitoring method

TIP Watch the forecast and adjust work hours, and check OSHA and CDC heat guidance for workers.
