Poultry Heat Stress Management Guide

A poultry heat stress management guide covering signs of heat stress and steps to protect birds. Producers use it to prepare houses and respond to hot weather.

Farm / unit: _____ Date: _____ By: _____

1. Watch forecasts and alerts
2. Ensure ventilation works
3. Provide cool clean water
4. Provide shade or cooling
5. Reduce handling and stress
6. Adjust feeding times
7. Watch for panting and weakness
8. Record losses and call your vet

YOUR NOTES

TIP Check birds more often in hot weather, and have a plan if power or water fails.
