Poultry Manure Management Plan

A poultry manure management plan template for outlining how manure is stored, handled and used. Producers use it to plan around nutrient use, water protection and neighbor concerns.

Farm / unit: _____ Date: _____ By: _____

Farm and contact information

Manure sources and house types

Storage method and location

Handling and hauling practices

Land application plan

Nutrient testing plan

Setbacks and water protection

Records to keep

Review and update schedule

TIP Check your state rules and talk with NRCS or your extension office before finalizing the plan.
