Farm Dust Control Plan Template

An outline for a farm dust control plan covering fields, roads and grain handling, used by owners to reduce dust and meet local air rules.

Farm / unit: _____ Date: _____ By: _____

Dust sources on the farm

Unpaved roads and lots

Field operations that raise dust

Grain handling and storage dust

Controls such as water or cover

Weather conditions that limit work

Worker protection measures

Complaint response steps

Plan review notes

TIP Check with your state air agency and extension office about local dust rules.
