Farm Fire Prevention Plan Template

An outline for writing a farm fire prevention plan covering ignition sources, storage, equipment and response, used by owners to give every worker one clear reference.

Farm / unit: _____ Date: _____ By: _____

Farm site and building overview

Main fire hazards by location

Fuel and chemical storage rules

Hay and grain storage precautions

Equipment maintenance and spark control

Smoking and welding rules

Alarm, extinguisher and exit locations

Roles during a fire

Training and drill schedule

TIP Share the finished plan with your local fire department and review it whenever buildings or equipment change.
