Farm Honey Sales Compliance Guide

A compliance guide for selling honey, used by beekeepers who sell jars at markets, stores or from the farm. Review it with the people involved and update it whenever your operation changes.

Farm / unit: _____ Date: _____ By: _____

1. Check state rules for honey sales
2. Use clean food-grade equipment and jars
3. Label with name, weight and your address
4. Avoid unsupported health claims on labels
5. Keep extraction area clean and covered
6. Record batches and sales
7. Check rules for honey from other beekeepers

YOUR NOTES

TIP Ask your state agriculture department and FDA labeling guidance about honey requirements.
