Farm Produce Sales Compliance Guide

A compliance guide for selling fresh produce, used by farms selling at stands, markets, stores and through subscriptions. Fill it in with a pen, share it with your team, and store it with related paperwork.

Farm / unit: _____ Date: _____ By: _____

1. Check whether produce safety rules apply
2. Test water and manage amendments per rules
3. Train workers on hygiene and harvest
4. Clean and sanitize harvest tools and bins
5. Label and weigh according to local rules
6. Keep sales and lot records
7. Plan for recall and complaint handling

YOUR NOTES

TIP Check FDA produce safety rule exemptions and your state requirements before the growing season.
