Farm Spill Prevention Control & Countermeasure (SPCC) Plan Template

An outline for a spill prevention, control and countermeasure plan for farm fuel and oil storage, used by owners who must plan for releases to water.

Farm / unit: _____ Date: _____ By: _____

Facility description and site map

Oil and fuel containers listed

Spill direction and flow paths

Secondary containment measures

Inspection and testing routine

Loading and unloading procedures

Spill response and cleanup steps

Contact list and notifications

Professional review and certification notes

TIP Confirm with EPA or your state agency whether your farm needs a plan, and who must certify it.
