Farm Stormwater Pollution Prevention Plan (SWPPP) Template

An outline for a stormwater pollution prevention plan for a farm site, used by owners with construction or land disturbance who need to control runoff.

Farm / unit: _____ Date: _____ By: _____

Site description and drainage map

Nearby water bodies

Sources of runoff pollution

Erosion and sediment controls

Material and fuel storage controls

Inspection routine and logs

Responsible person

Corrective action steps

Plan updates and sign-off

TIP Ask your state environmental agency whether a permit applies, and update the plan whenever site work changes.
