Farm Traceability Plan Template

An outline for a food traceability plan, used by farms to track products one step back and one step forward. Fill it in with a pen, share it with your team, and store it with related paperwork.

Farm / unit: _____ Date: _____ By: _____

Products covered

Lot or batch code system

Supplier records

Receiving records

Storage location records

Customer and shipping records

Mock recall steps

Contact list for recalls

Plan review notes

TIP Run a mock recall each year to see whether your records answer the right questions.
