Small Ruminants (Sheep & Goats) | WORKSHEET

Sheep Production Cost Calculator

A calculator sheet for adding up what it costs to raise sheep. Use it to find your cost per head or per product sold. Fill in each line from your own records and keep the worksheet with your other farm papers.

Farm / unit: _____ Date: _____ By: _____

Feed costs to fill in _____

Pasture or hay costs _____

Veterinary and medicine costs _____

Labor costs to fill in _____

Equipment and fuel costs _____

Housing and fencing costs _____

Marketing and hauling costs _____

Total divided by units sold _____

NOTES / CALCULATIONS

TIP Include unpaid family labor and equipment wear in your tally to see the true cost of production.
