Soil, Water & Conservation | WORKSHEET

Nutrient Runoff Risk Assessment

Worksheet for assessing nutrient runoff risk on a field, collecting soil, slope, source, timing and distance to water. Fill in each line as you gather facts and keep the sheet with your field records.

Farm / unit: _____ Date: _____ By: _____

Field name and location _____

Slope and soil type _____

Soil test levels _____

Distance to ditch or stream _____

Nutrient source and form _____

Application method and timing _____

Cover or residue present _____

Buffers or filter strips _____

Overall risk and actions _____

NOTES / CALCULATIONS

TIP Use official risk tools from your state or NRCS to score the field, and record the results here.
