Riparian Planting Guide

Guide to planting along streams, covering site review, plant selection, planting steps and early care. Work through the steps in order and keep notes on what you find along the way.

Farm / unit: _____ Date: _____ By: _____

1. Review the site and goals
2. Walk the planting area
3. Choose plants suited to the site
4. Order stock early
5. Prepare the planting area
6. Plant and protect each plant
7. Water and weed in early years
8. Check survival details
9. Record results and replants

YOUR NOTES

TIP Check with your conservation district about plant lists and programs for riparian plantings.
