Salinity Management Plan Template

Template for writing a salinity management plan, tying soil and water test results to leaching, drainage and crop choices on affected fields. Fill in each section for your own farm and review the finished plan with a trusted adviser.

Farm / unit: _____ Date: _____ By: _____

Farm and field identification

Salinity symptoms observed

Soil and water test results

Irrigation water source

Drainage conditions details

Crop tolerance and choices

Leaching and water management plan

Amendment needs per lab advice

Monitoring schedule details

Review notes details

TIP Get soil and irrigation water tested and ask your extension specialist to review the plan before you act on it.
