Soil Fertility Management Plan Template

Template for writing a soil fertility management plan that ties soil test results, crop needs and planned nutrient sources together field by field. Fill in each section for your own farm and review the finished plan with a trusted adviser.

Farm / unit: _____ Date: _____ By: _____

Farm and field identification

Soil test summary

Crop and yield goals

Nutrient needs by crop

Planned nutrient sources and timing

Lime or amendment needs

Application methods and equipment

Monitoring and recordkeeping

Annual plan review notes

TIP Base each recommendation on your lab report and local extension guidance, then update the plan after every new test.
