Soil pH Adjustment Worksheet

Worksheet for planning a soil pH adjustment, collecting the test results and field details needed to choose and schedule a liming or acidifying material. Fill in each line as you gather facts and keep the sheet with your field records.

Farm / unit: _____ Date: _____ By: _____

Field name and crop _____

Current soil pH from the lab _____

Target pH for the crop _____

Buffer or lime requirement from the lab _____

Soil texture details _____

Material to be used _____

Application method details _____

Planned timing details _____

Retest date and notes _____

NOTES / CALCULATIONS

TIP Use the lime recommendation printed on your lab report and retest the soil after the material has had time to work.
