Swine | WORKSHEET

Pig Flow Planning Worksheet

Use this Pig Flow Planning Worksheet to work through planning how pigs move through the farm. Write your own numbers and notes on each line, and review the finished page with your advisor or veterinarian.

Farm / unit: _____ Date: _____ By: _____

Production system name _____

Groups and phases _____

Facility for each phase _____

Capacity of each facility _____

Time pigs spend in each _____

Cleaning and rest time _____

Weekly or batch plan _____

Transport and loading needs _____

Bottlenecks noticed _____

Changes to try _____

NOTES / CALCULATIONS

TIP Draw pig flow on paper first, then test the plan against barn space and cleanout time.
