Pig Quarantine Protocol

Use this Pig Quarantine Protocol as a quick reference for isolating and monitoring new or returning pigs. Follow the steps in order, adapt them to your barns, and check source guidance for details.

Farm / unit: _____ Date: _____ By: _____

1. Set up a separate pen or building
2. Plan chore order so quarantine pigs come last
3. Use dedicated boots and tools
4. Check pigs and record signs each day
5. Ask your veterinarian about testing
6. Treat sick pigs per veterinary advice
7. Keep a written log of observations
8. Confirm release steps with your veterinarian
9. Clean and disinfect the pen afterward

YOUR NOTES

TIP Write the plan before pigs arrive and decide who releases them from quarantine so it is not guesswork.
