Swine Manure Management Plan

Use this Swine Manure Management Plan to organize laying out how manure is stored, handled and applied. Complete each section in your own words and keep the finished copy with your farm paperwork for later review.

Farm / unit: _____ Date: _____ By: _____

Operation name and location

Manure storage type and capacity notes

Sources of manure on site

Application fields and maps

Soil and manure testing plan

Application timing and methods

Setbacks and sensitive areas

Spill and emergency steps

Records to keep

Plan review schedule

TIP Check your state rules and talk with NRCS or extension staff before writing or changing a plan.
