Aerial Imagery Analysis Worksheet

A worksheet for reviewing aerial photos of fields, helping farmers record what the images show, where the problem areas are, and what to check on the ground.

Farm / unit: _____ Date: _____ By: _____

Field name _____

Image date and source _____

Crop and stage _____

Areas that look different _____

Possible cause _____

Ground check planned _____

Who will scout _____

Follow-up action _____

Date reviewed _____

NOTES / CALCULATIONS

TIP Pair every image with a ground visit before you act, since shadows and light can mislead the eye.
