Cloud Storage Setup Guide for Farms

A guide for setting up cloud storage for farm records, helping owners choose a service, organize folders, set sharing, and keep files safe. Print it and keep a copy with your records.

Farm / unit: _____ Date: _____ By: _____

1. Decide which files go in the cloud
2. Choose a service and review its terms
3. Create the account with a strong login
4. Turn on two-step sign in
5. Set up a clear folder structure
6. Share folders only with those who need them
7. Test uploading and recovering a file
8. Review sharing settings each year

YOUR NOTES

TIP Check the service's terms on data ownership and keep a second backup somewhere other than the cloud.
