Farm Password Management Guide

A guide to managing passwords across a farm, helping owners and staff choose a password manager, set rules, and handle shared accounts safely. Print it and keep a copy with your records.

Farm / unit: _____ Date: _____ By: _____

1. List the accounts the farm uses
2. Choose a password manager
3. Create one strong main password
4. Turn on two-step sign in
5. Move existing logins into the manager
6. Set up shared items for employees
7. Remove access when someone leaves
8. Review accounts every year

YOUR NOTES

TIP Never keep passwords on sticky notes in the shop or truck, and use the manager's sharing for shared accounts.
