Pest Forecasting App Setup Guide

A guide for setting up a pest forecasting app, from choosing a source to entering field locations and deciding how alerts will lead to scouting.

Farm / unit: _____ Date: _____ By: _____

1. Choose a forecast source your extension office trusts
2. Create an account and record the login safely
3. Enter field locations and crops
4. Pick the pests to follow
5. Set notification preferences
6. Compare forecasts with scouting results
7. Note which alerts were useful

YOUR NOTES

TIP Treat a forecast as a reminder to scout, and make treatment choices from field counts and the product label.
