Technology Failure Contingency Plan

A contingency plan outline for when farm technology fails, helping owners decide in advance who does what when a system goes down. Print it and keep a copy with your records.

Farm / unit: _____ Date: _____ By: _____

Systems the farm depends on

What failure looks like

Who is notified first

Manual backup steps

Vendor and dealer contacts

Where backups are kept

Temporary workarounds

Recovery steps and sign off

TIP Practice one failure drill each year, such as running a day without internet, and fix gaps in the plan.
