Technology ROI Calculator for Farms

A worksheet for estimating the return on a farm technology purchase, helping owners compare costs and expected gains in their own numbers. Print it and keep a copy with your records.

Farm / unit: _____ Date: _____ By: _____

Technology being considered _____

Purchase and setup cost _____

Yearly subscription cost _____

Training time needed _____

Expected savings or gains _____

Source of the estimate _____

Years of expected use _____

Risks and unknowns _____

Decision and date _____

NOTES / CALCULATIONS

TIP Base expected gains on your own records or trial results rather than the seller's claims.
