Zone Management Worksheet

A worksheet for dividing a field into management zones, helping growers record what data each zone is based on and how each zone will be handled differently.

Farm / unit: _____ Date: _____ By: _____

Field name _____

Data layers used _____

Number of zones _____

Zone description _____

Soil type in zone _____

Past yield pattern _____

Planned seed approach _____

Planned fertility approach _____

Review date _____

NOTES / CALCULATIONS

TIP Ground-truth each zone with soil samples before changing inputs, and ask your extension agent to review the zone boundaries.
