Dragonfly Pond Management

A dragonfly pond management guide with steps for keeping a pond that supports dragonflies and damselflies by maintaining clean water, plants, and perches and is free to print.

Farm / unit: _____ Date: _____ By: _____

1. Review pond plants and edges
2. Keep some aquatic plants
3. Provide perches along the edge
4. Maintain clean, unpolluted water
5. Limit fish that eat larvae
6. Keep a buffer strip
7. Avoid chemicals near the water
8. Watch adults and exuviae
9. Record species seen

YOUR NOTES

TIP Count adults on warm days and note any change from year to year.
