# Integrated Wildlife Damage Management Plan

An integrated wildlife damage management plan template for outlining problem species, prevention, control steps, and review so farms use a balanced and lawful approach and is free to print.

Farm / unit: _____ Date: _____ By: _____

## Problem species and sites

## Damage history

## Prevention steps

## Habitat changes

## Exclusion measures

## Scare and repellent options

## Lawful control methods

## Roles and contacts

## Records to keep

## Annual review

**TIP** Start with prevention and exclusion before control, and confirm methods with your wildlife agency.
