Wildlife & Conservation | WORKSHEET

Native Seed Mix Calculator

A native seed mix calculator worksheet for working out how much seed to buy by listing acres, species, and supplier directions, without guessing at rates.

Farm / unit: _____ Date: _____ By: _____

Field name _____

Area to be planted _____

Species in mix _____

Supplier seeding directions _____

Seeding method _____

Seed amount from supplier _____

Seed source and lot _____

Planting date plan _____

Notes on soil prep _____

NOTES / CALCULATIONS

TIP Use the seed supplier and your NRCS office for rates and mixes, and do not guess.
