Wetland Planting Guide

A wetland planting guide with ordered steps for choosing native wetland plants, preparing the site, and caring for new plantings so wetlands recover and support wildlife.

Farm / unit: _____ Date: _____ By: _____

1. Assess water levels at the site
2. Pick native wetland plants
3. Source plants from reputable suppliers
4. Prepare the planting area
5. Plant at the right time of year
6. Protect from grazing animals
7. Control weeds during establishment
8. Watch water levels after planting
9. Record survival and replant

YOUR NOTES

TIP Ask NRCS or your extension office which native species suit your wetland.
