Wildlife Corridor Planning Worksheet

A wildlife corridor planning worksheet for mapping travel routes between habitat patches, helping landowners decide where to connect cover and what barriers to remove and is free to print.

Farm / unit: _____ Date: _____ By: _____

Habitat patches to connect _____

Current travel routes seen _____

Barriers such as roads or fences _____

Existing cover along the route _____

Neighboring landowners involved _____

Plants or features to add _____

Fence changes needed _____

Priority of each link _____

Monitoring plan _____

NOTES / CALCULATIONS

TIP Talk with neighbors early, since a corridor works best when it continues across property lines.
