# Wildlife Viewing Area Design Guide

A wildlife viewing area design guide with steps for planning a spot where visitors can watch animals with little disturbance, from site choice to signs and safety.

Farm / unit: _____ Date: _____ By: _____

1. Pick a quiet site with good views
2. Map access paths
3. Plan screening and cover
4. Add native plantings
5. Set viewing positions
6. Provide seating where needed
7. Install clear signs
8. Check safety hazards
9. Review use and disturbance

**YOUR NOTES**

**TIP** Place viewing spots away from nests and dens so visitors do not disturb animals.
