Window Collision Prevention Guide

A window collision prevention guide with steps for finding problem windows and adding markers or screens so birds are less likely to strike glass at homes and farm buildings.

Farm / unit: _____ Date: _____ By: _____

1. Walk around and find reflective glass
2. Note windows where birds hit
3. Add exterior markers to the glass
4. Use screens or netting outside
5. Move feeders near or far from glass
6. Close blinds at risk times
7. Turn off unneeded lights
8. Check results
9. Record changes

YOUR NOTES

TIP Apply markers on the outside of the glass and check them each season.
